Mochamad Riefky Rafliana S

Fullstack Web Developer
Bandung, West Java, Indonesia

Summary

Experienced web developer specializing in JavaScript, with a track record of creating dynamic and responsive web applications. With 1 year of practical experience in the field, I provide in-depth understanding of front-end and back-end technologies to provide a seamless user experience. Proficient in modern frameworks such as React, I leverage my skills to create efficient and scalable solutions.

My expertise covers the entire web development process, from conceptualization to implementation, ensuring a holistic approach to project execution. In previous roles, I have successfully collaborated with cross-functional teams to deliver high-quality software solutions, meeting client and end-user expectations.

Driven by a commitment to staying current with industry trends, I actively seek opportunities to enhance my skills and adopt emerging technologies.

As a detail-oriented problem solver, I thrive in a fast-paced environment and am adept at troubleshooting and debugging complex issues. Whether working independently or as part of a collaborative team, my goal is to contribute to project success by delivering clean, maintainable code and meeting project schedules.

If you are looking for a dedicated web developer with a strong foundation in JavaScript and a proven track record of delivering high-quality solutions, I would love to bring my skills and enthusiasm to your team. Let's collaborate to make your vision a reality through cutting-edge web development.
